3D2B offers its Clients the essential services and tools needed to help them maximize their sales revenue and optimize their marketing campaigns.

Your Business in Three Dimensions

3D2B is a service provider whose primary business and expertise is in providing B2B customer acquisition solutions to high-technology companies worldwide.

3D2B executes all processes for its clients, delivering people, processes, and systems in order to implement and integrate all components of the customer acquisition process. 3D2B enables all CRM processes through its domain specific business strategies - used to ensure operational excellence. This includes: execution services, business know-how, workflow processes, professional services, data hosting and services, as well as CRM applications.

3D2B has a proven ability to deliver high quality, high value, pre-sales support services which contribute to the overall revenue growth of its clients. Our cumulative business intelligence and know-how gives 3D2B the ability to continuously improve its implementation and delivery methodologies, which in turn enable customers to reduce operational and execution costs.

As a vertical service integrator, 3D2B enables its clients to maximize their marketing and sales initiatives. Our international team of industry experts will help you increase sales, find new markets, and build or expand your Channel.

Drawing on our universal expertise, our consultants provide innovative solutions that streamline processes, reduce costs, increase quality and productivity. Turn your sales and marketing objectives into proven, profitable results!

As a partner, 3D2B essentially acts as a high value, outsourced, extension to your sales and marketing departments. Providing services in over 15 native languages, 3D2B provides effective and efficient market coverage.

We make every effort, every day, to meet or exceed the expectations of each of our clients.
